

Histology

Processing & Embedding

	Internal	Academic	External
Process only	3.00	3.95	5.20
Process & embed only per block	4.60	6.00	8.00
Process, embed and H&E per block	8.25	11.00	14.50
Dissection for processing and embedding (per hour)	37.00	48.00	63.00

Sectioning with or w/o H&E Staining

	Internal	Academic	External
H&E Only (customer provides slides)	2.15	2.80	3.75
H&E Staining from an existing block per slide (1 section per slide)	3.25	4.25	5.75
H&E – Multiple sections per slide (each additional section)	2.20	3.20	4.70
Unstained slides from an existing block per slide (1 section per slide)	2.25	3.00	4.00
Unstained – Multiple sections per slide (each additional section)	1.85	2.60	3.60
Independent use of microtome (per hour)	22.00	30.00	38.00

Frozen Sections

	Internal	Academic	External
Mandatory consultation for all new frozen work	55.00	75.00	95.00
Snap freezing, embedding for samples per block	11.00	14.00	19.00
Cryosectioning (per hour)	37.00	48.00	65.00
Independent use of cryotome (per hour)	22.00	30.00	38.00

Laser Capture Microscopy

	Internal	Academic	External
Personnel Time	48.00	64.00	85.00
Training	60.00	79.00	104.00
Use of LCM after training (per hour)	22.00	30.00	38.00
Supplies		Costs Vary	

Tissue Procurement Services

Tissue Collection (Breast & Ovarian Registries)

	Internal	Academic	External
Fresh tissue collection (per sample)			
Snap Frozen Tissue			
Section of paraffin tissue (3-6uM) from Tissue Registry (per section)			
Section of paraffin tissue (7-20uM) from Tissue Registry (per section)			
HMEC Cells (p0) (per sample)			
HMEC Cells (p1) (per sample)			
HMEC Cells (p2) (per sample)			
Whole Organ Culture (per sample)			
Conditionally immortalized HMEC cells (per sample)			
Fresh spheroids			
Organoids (per line)			

Custom Collection

(Requests for specimens are reviewed to ensure the availability of tissues)

Fresh tissue collection (per sample)
Whole Organ Culture (per sample)
Snap Frozen Tissue (50mg)

Contact Us For Pricing

In order to partially cover operational and personnel costs a nominal fee will be charged to investigators utilizing biorepository services.

This helps cover costs related to procurement, processing, storage, and distribution of biospecimens needed for cancer research.

Projects are assessed and fees are determined on an individual basis.

Blood Collection (Banked from Registry)

- Blood - Unprocessed
- Blood - FTA spots (per spot)
- Blood - plasma or serum (0.2mL)
- Buffy coat (0.1mL)

Contact Us For Pricing

In order to partially cover operational and personnel costs a nominal fee will be charged to investigators utilizing biorepository services.

Custom Collection *(Requests for specimens are reviewed to ensure availability of tissues)*

- Blood - Unprocessed
- Blood - plasma or serum (0.5mL)
- Blood Specimen Processing

This helps cover costs related to procurement, processing, storage, and distribution of biospecimens needed for cancer research.

Projects are assessed and fees are determined on an individual basis.

Additional Services Available (Add on Services)

Special Stains

- Client responsible for cost of reagents
- Staining (per hour)

Internal	Academic	External
	varies	
37.00	48.00	63.00

Immunohistochemistry *

- IHC Autostainer (per slide)
- IHC (by hand)
- IHC (by hand) Labor (per hour)
- IHC (by hand) Reagent Cost
- Client responsible for cost of primary antibody
- IRB Assistance (per hour)

Internal	Academic	External
19.00	25.00	33.00
37.00	48.00	63.00
	varies	
	varies	
80.00	110.00	150.00

Immunofluorescence

- IF (by hand) Labor (per hour)
- IF Reagent Cost

Internal	Academic	External
37.00	48.00	63.00
	varies	

Consultation Fees

- Histology Consultation
- Expedited service request

55.00	75.00	95.00
20%	20%	20%

Common Supplies

- Cassette
- Slide Boxes

0.7	0.95	1.25
14.00	18.00	23.00

Shipping

Client is responsible for all shipping costs

* Any Dako FlexKit usage will increase cost - contact HistoSpring for additional info

* Antibody optimization required
